Versatility

Portability

Easy Control and Monitoring via Ethernet

The **TP-800** features a bright 15" 4:3 LCD screen that can be seen outdoors and includes a V-Mount battery slot to power it anywhere ideal for outdoor or remote locations. Control and monitor the prompter over a local network using any device with a modern web browser, load, reload and control scripts over a local network.

Synchronize Multiple Units via HDMI or IP

Connect multiple TP-800's together using HDMI input and output or use IP synchronization over Ethernet to provide two viewing TP-800 for the talent. The HDMI input allows the built-in screen to be used as a monitor.
